Host + Numbers

- Only the host can press Next Number.
- Numbers are randomly called from 1 to 90 and never repeat.
- The first number changes the room from waiting to playing.
- Everyone sees the last number, called count, and highlighted called numbers.

Prize amounts shown are examples; actual values are set by the host.

- Fastest Five: any 5 ticket numbers are called and marked.
- Top Line: all 5 top-row numbers are called and marked.
- Middle Line: all 5 middle-row numbers are called and marked.
- Bottom Line: all 5 bottom-row numbers are called and marked.
- Housie: all 15 ticket numbers are called and marked.
- Fastest Five and each line can be won once per room.
- Housie can have as many winners as the host allowed.
- Correct claim: prize amount is added to the purse.
- Bogey claim: incorrect/early claim deducts that prize amount.
- Prizes Claimed shows winners; Players shows current purse values.
- Use Claim a prize only when your ticket qualifies.
- Incorrect claims show a Bogey message with the reason.
- The room creator also receives a ticket and can play.
- Current purse values update for all players.

Called board

Highlighted cells are numbers that have arrived.

- The game ends automatically when the allowed number of Housie claims is reached.
- After the game ends, no more numbers are called and the leaderboard is shown.
- Leaderboard ranks players by purse from highest to lowest.
- Player tip: watch the last number and called board, mark immediately, and verify before claiming.
- Host tip: wait for expected players, share the code clearly, and call numbers at a steady pace.
- Use Exit to leave; leaving removes your player record and you lose access to that ticket.
